

Personnel Security Services

Comprehensive Verification, Training and Protection

Our Mission: Total Awareness, Total Preparedness, Total Peace Of Mind

Novaforge deploys comprehensive security solutions for clients -- addressing all aspects of total security: IT, Physical, Human, Disaster Recovery, and Compliance. Audit includes penetration tests, site survey, and a total security review. From video surveillance and access control to firewalls, data backups, & employee background checks, our engineers bring to bear a wide array of best security practices, solutions expertise, security certifications, and integration experience to maximize the bottom-line impact that your security investment must have -- to protect and improve business value.

Total Personnel Security Expertise - Encompassing key areas to protect your business and employee relationships

VERIFICATION	TRAINING	PROTECTION
Credential Validation	Executive Retreats	Armed and Unarmed Guards
Pre-Employment Background	Travel Safety Courses	Intellectual Property Investigation
Personal Background Investigation	Firearms Training	Personal Protection Specialists
Unlisted/Phone/PO Box Search	Dependant/Family Security	Anonymous Research

Proven Process with Personalized, Relevant, and Real Value

Our team of experts brings to bear our diverse business experience combined with critical training and certifications in all aspects of security, research, private investigation, and training. Our Team of Security Professionals leverage knowledge, experience, and training to protect your team while driving clear value to your business efficiently. Our proven processes ensure that you cover all the bases when making decisions that could expose your business to harm:

- * Truly get what you think you are getting when you hire employees, contractors, or specialists.
- * Protect against corporate espionage, theft, and abuse of your trust
- * Train your key team members to protect themselves, their family, and the business
- * Be aware of - and ready for - threats to your team, your business, intellectual property, and assets.

Our Promise: 100% Guaranteed Deliverable Value

We know you will see dramatic value from our services - so much so that we promise if you are not convinced of the value of our deliverables that you only pay us what you feel your deliverable is worth. In the course of our services, your documented and presented deliverables will include the following services:

- * Pre-Audit to efficiently schedule and coordinate interviews, system testing, and data gathering.
- * Documentation of all interviews and surveys.
- * Documented Data from inquiries and research
- * Gap Assessment defining process vulnerabilities - along with best practice recommendations.
- * Ongoing Security Management Plan with best practice policies and procedures.
